Natural, clean, romantic, fun and eclectic photography...

By becoming part of your family, we feel and see the emotions unfolding throughout the day, and this will be portrayed in your photographs. We are fun, unobtrusive, experienced and very professional. I don't want to say we have seen it all but I assure you we have seen a lot.

We take the time to develop your images... Here is where the professional part comes in. Once your event is shot, every image will go through our four-step color refinement process and Photoshop re-mastering. In a timely manner we deliver an eclectic mix of color, black & white, sepia and other custom filtered images. Every image that leaves our studio is print ready. You receive the high resolution digital files on a flash drive with full rights to print as many as you want wherever you want.

Weddings

Trust: Start with trust... Your wedding day is one of the most important days of your life. Be sure to hire a professional photographer that is experienced and reliable. We have been in business since 1993 and are a good standing member with the local Better Business Bureau. We are fully insured so you can relax knowing that you are dealing with a legitimate business that is going to be there for you before, during, and after your wedding.

Engagements

Our photo booths are fun and easy to use...

We offer a full range of "on-site printing" products such as our Vintage Style Photo Booth, green screen and traditional backdrop photo stations. Guests choose Color or Black and White, or they can choose to record a video message.

Within 15 seconds, two duplicate photo strips of the images are printed. Guests can visit the booth as often as they wish throughout your wedding. The photo strips will be personalized with the bride and groom's names and wedding date. All of the photos will be posted on Facebook.
